**Additional Information / Prior Funding History:****Project Description/Justification:**

This project will construct a new school to replace the existing 2,514 square foot K-12 built in 1962 and a 1,920 square foot auxiliary classroom built in 1982. The present buildings are in very poor condition and have numerous code violations and fire hazards. The piling foundations have sustained significant damage and movement because of flooding. Roof or structural collapse during a heavy winter snow is a possibility. Proposed cost: \$1,993,825.
