Project Description/Justification:**Detailed Project Justification:**

The federal government provides funds for various authorized projects on a "no-notice" basis. These funds are through the receipt of congressionally allocated funds especially designated as "plus-up" or "quality of life" funds. The funds have been allocated for additional expenditures not covered within the funded operations and maintenance budget. The funds are utilized for emergency repairs and/or highly recommended real property and facility upgrades. The National Guard Bureau has various incentive programs allotting specific amounts for justified projects. Only if we have the Federal Authority are we able to accept the incentive program funding and enhance the facilities and reduce our Deferred Maintenance and Replacement and Renewal log.

Specific Spending Detail:

To be determined by the type of program NGB is providing.
