Additional Information / Prior Funding History:

Project Description/Justification:

School of Fisheries and Ocean Sciences Facility at Lena Point – Phase I of II (Fairbanks)
 G.O. Bond \$9,000.0

The proposed facility at Lena Point will provide long-term support for UAF’s School of Fisheries and Ocean Sciences (SFOS) and its academic and research mission. The facility is a three-story building consisting of approximately 41,500 square feet. The building is programmed to provide space for 14 faculty members and their associated research assistants and graduate students. The academic space consists of two classrooms, one teaching lab, and a seminar room with a capacity to accommodate 120 people. The research space consists of 19 laboratories for a multitude of scientific disciplines ranging from computer labs for statistical analysis to wet labs with large salt-water tanks. The facility will be jointly located with the proposed National Oceanic Atmospheric Association (NOAA)/National Marine Fisheries Service (NMFS) facility at Lena Point, 10 miles north of Juneau. Federal contributions are pending.
