Component Mission

To provide a tracking system for DNR's facility maintenance costs, as required by legislation enacted as SLA98/CH90.

Component Services Provided

This component is set up to receive "authorization" from the DNR operating components that expend money on facility maintenance. Over the course of the fiscal year, individual components will track their expenditures for facility maintenance, and at year-end we will do an accounting adjustment to move the expenditures into this component. On an annual basis, this component will contain all facility maintenance costs incurred by DNR's operating divisions.

Component Goals and Strategies

Not applicable.

Key Component Issues for FY2003 – 2004

To reduce the duplication of accounting and record keeping DNR chose to collect this information at the point of origin in the specific components and then at the end of the year to adjust and collect department-wide information in this budget.

Although the intent of creating this component is a good, the definitions for facilities maintenance are not clear, but we will do our best to comply with the legislative intent.
