**Project Description/Justification:**

The purpose of this program is to provide management improvements to the public housing program.

**The projected outcomes are:**

- Training for staff;
- Training for residents;
- Drug Elimination Program improvements;
- Computer hardware & software upgrades.

The federal government, through the U.S. Department of Housing and Urban Development (HUD), provides Public Housing Authorities (PHA) with money each year to help cover program operations and management improvements through the Capital Fund Program.

Program operations and management improvements funded by this year's request include: resident self-sufficiency program, job and life skills training for the residents, service coordinator for senior residents, security training and services, Section 3 program training, and PHA staff training, which includes training for Maintenance, Housing Operations, and Construction. Please note: other supportive services previously funded with Public Housing Drug Elimination Program (PHDEP) funds are being incorporated here.

Also, to improve communications, operations, and disaster recovery, funding will be provided for information systems and area-wide network upgrades at low rent developments.
