The administration consolidated the human resources functions statewide in FY2005. As part of the consolidation, the General Fund authorization in the Department of Administration, Division of Personnel (DOP) was allocated out to other State agencies to provide base funding in agencies to pay for the centralized human resources services. This allocation of funding was based on a management unit methodology. After a year's experience, it has become clear that that methodology has some inequities built into it. For FY2006, the administration is changing to a PCN based rate methodology that more equitably allocates costs and provides the necessary flexibility to manage the DOP chargeback. In order to implement the new rate methodology, it is necessary to re-allocate some of the General Fund authorization originally distributed to the departments in FY2005.

National Guard Bureau Army and Air Guard Cooperative Agreements do not allow indirect costs in accordance with National Guard Regulation 5-1/Air National Guard Instruction 63-101. The department established direct cost allocation methodologies in order to bill these agreements for their proportionate share of direct administrative costs beginning in 1994, thereby avoiding a significant 100% general fund contribution for the administrative support of these programs. Based on the recent audit of our cost allocation practices, by the Defense Contract and Audit Agency, National Guard Bureau will no longer allow the department to allocate administrative costs which they consider to be indirect costs. DCAA Audit Report No. 4261-2004K17900002, dated December 3, 2004.												
This disallowance is effective beginning with federal fiscal year 2005. A corrective action plan changing the cost accounting structure and reorganizing workload is being implemented in order to minimize this new general fund requirement. Corrections during the current fiscal year will result in a reduction of the estimated annual disallowance amount of \$937,237, as reported in the audit, to \$594,700. The FY2005 portion of federal fiscal year 2005 is three quarters of the year which equals a general fund shortfall of \$446,000. The FY2006 request portion is a full year which equals a general fund shortfall of \$594,700.												
Immediate compliance in FY2005 will avoid potential audit disallowances dating back to FFY01. The estimated potential liability for the prior federal fiscal years is as follows: FY01 \$725,216; FFY02 \$763,385; FFY03 \$803,564; FFY04 \$890,375. The National Guard Bureau, United States Property and Fiscal Officer of Alaska has stated that compliance in federal fiscal year 2005 will be sufficient to avoid any future prior federal fiscal year audit disallowances associated with these audit recommendations.
