Additional Information / Prior Funding History:

None.

Project Description/Justification:

The roads in Emmonak lack sufficient gravel surfacing. And as a result, dust is a constant problem in the village. Respiratory problems are common due to the dust. This project would allow the village to find the best alternative to reduce dust in the village.

The earmark was requested by the City to conduct dust abatement research on the roads in the community. The city is aware that a local match will be required. The city will continue ownership and maintenance of the roads in the community. DOT&PF will have no involvement in this project other than handling the funds.
