Additional Information / Prior Funding History:

None.

Project Description/Justification:

Shishmaref is a coastal village that has been experiencing severe erosion. The village has selected a preferred relocation site and is working with the U.S. Army Corps of Engineers and the National Resource Conservation Service to further its relocation plans. A staged airport master plan will help airport relocation keep step with village relocation efforts. Stage one will include scoping, meetings, wind data collection, and preliminary alternatives identification.
