Additional Inter-Agency Receipt authority is being requested to adequately capture the increase in the Department's maintenance charges. The Department is responsible for maintaining state-owned buildings, some of which are 20 years old or older. The conditions of these buildings require continued maintenance to insure that the facilities continue to operate safely. In addition other items such as utility and supply costs have continued to increase.

Request will expand the Imaging process to include the Anchorage area. Currently there are approximately 1,500 boxes of medical records and 2,000 boxes of offender criminal records to be imaged to help reduce space and storage requirements. These boxes are being stored at the Diplomacy Building in Anchorage with additional offender medical records stored at the Anchorage Correctional Complex.												
The Diplomacy Building is being sold and the Department will need to relocate offices within the next two and a half years. Imaging these files will reduce the amount of space needed when negotiations begin for new leased space.												
This request includes three positions to complete this project. Due to the number of records to be sanitized and imaged, these positions are critical at this stage. Once the expansion of the Imaging process is fully implemented it will result in increased efficiencies of components within the Department and in costs avoidance for future storage requirements.

<p>The Department is requesting funding to meet increased bed costs for the Florence Arizona Contract Facility. An increase of beds from 760 beds to 850 beds is necessary to meet the growing prisoner population and in maintaining offender incarceration.</p> <p>The proposed increase for this component is related to the new price negotiated for the Florence Arizona Facility. The FY2007 bed rate is currently estimated at an amount of \$59.36 per prisoner per day with an anticipated average prisoner population of 850.</p> <p>As of October 25, 2005, the current out-of-state prisoner population is at 766 and the in-state population is at 108% of the institutional emergency capacity. With increased law enforcement by local and state agencies, the Department has no expectation of any decline in the offender population and anticipates placing more prisoners in the contract facility throughout the next fiscal year.</p>

There are currently fifteen local communities operating jails providing 153 beds for offenders charged with violating state statutes.

In order to maintain safe and adequate services, the Department is requesting an increment of \$558,000 to meet a 10% increase in funding for community jails. This will provide resources to enable the community jails to stabilize their infrastructure and workforce so they can continue to provide local short-term incarceration for state prisoners.

The Mental Health Trust Recommendation for FY 2007 is to increase funding and continue implementation of the APIC (Assess, Plan, Identify, and Coordinate) program.												
Part of the FY 2006 Trust Recommendation was for the Department of Corrections to Implement the "APIC" Model in the Disability Justice workgroup for "Community Reentry of Offenders with Co-occurring Disorders". This transition program is to assist those not requiring 24 hour - 7 day a week services to help ensure they are connected with needed resources.												
Transition planning will assist people with co-occurring disorders to establish links to community services. These community links will reduce chances of re-offense.												
Access - the clinical and social needs, and public safety risks of the inmate.												
Plan - for the treatment and services required to address the inmates needs.												
Identify - required community and correctional programs responsible for post relief services.												
Coordinate - the transition plan to ensure implementation and avoid gaps in care.

The Department of Corrections is requesting additional funding to provide for a wage increase for Nursing positions. The current salary levels paid to nurses employed by the State of Alaska are not competitive with the private sector. The Department of Correction's continues to experience difficulties in the recruitment and/or retention of nursing positions.

A wage study is currently being prepared by Department of Administration, Division of Personnel. This funding is being requested at the contractual line until such time that the funding can be transferred to the personnel services line at the completion of the study.

The job classifications used for this calculation include: Nurse I, II, III, IV; Nurse (Psych) II, III, IV; Licensed Practical Nurse, and Quality Assurance and Utilization Review Nurse.

This technical adjustment is transferring the GF authorization received within the Institution Director's Office to meet increased heating fuel costs to the Spring Creek Correctional Center (SCCC). This adjustment should have been completed during the FY2006 Management Plan process.

After reviewing a comparison of heating fuel/gas expenditures from FY2004 and FY2005 of the 24-hour facilities, the SCCC reflects an increase in heating costs of 36%. Transferring this authorization to the SCCC reduces the increased percentage to approximately 22%. This will bring SCCC in-line with the average increases at other institutions.

The Department is requesting increased funding to meet heating fuel and natural gas / propane costs. This funding will provide 24-hour facilities with required funding to meet these costs.

The Department has experienced increases in the costs of heating fuel over the last three years. A strong effort has been made to manage these price increases, however these increases have grown beyond what the current funding levels can accommodate.

This technical adjustment is transferring the GF authorization received within the Institution Director's Office through Chapter 124, SLA 04, SB170 Criminal Law/Sentencing to the Anchorage Correctional Complex (ACC). This technical adjustment should have been completed during the FY2006 Management Plan.

The passage of SB 170 (Chapter 124, SLA 04) increased the length of time served by prisoners sentenced under the provisions of this statute. Increased prison sentences have the potential to increase the overall prisoner population.

Additional funding is being requested in order to meet increased travel costs because of procedural changes. The Department is now required to comply with Arizona Statutes pertaining to inmate transports.												
Previously, the Department was purchasing commercial airline tickets for non-violent and low risk offenders within the Department's custody. These offenders would then fly back to Alaska unescorted to their point of arrest destination. This process did not comply with Arizona Statute and all offenders are now required to be escorted back to Alaska prior to release.

The Anchorage Correctional Complex (previously the Anchorage Jail and Cook Inlet Correctional Center) is the largest prison in the State of Alaska. The majority of Municipality of Anchorage (MOA) prisoners are housed in this facility as well as the men's mental health mod and the medical segregation unit. The Complex is generally the staging facility for inmates being airlifted to out of state facilities.

The Complex holds more pre-trial offenders and processes more bookings, releases, and medical transports than any other correctional facility in the State. The additional staffing is necessary to meet security and support needs. The request for non-personal service increases is necessary to provide for daily household and institutional requirements of this multi-faceted facility.

This technical adjustment is transferring the GF authorization received within the Institution Director's Office through Chapter 124, SLA 04, SB170 Criminal Law/Sentencing to the Anchorage Correctional Complex (ACC). This technical adjustment should have been completed during the FY2006 Management Plan.												
The passage of SB 170 (Chapter 124, SLA 04) increased the length of time served by prisoners sentenced under the provisions of this statute. Increased prison sentences have the potential to increase the overall prisoner population.												
With the Department operating in excess of 100% capacity, the additional costs exceed the amounts budgeted for food, clothing, gratuities, staffing, and other items necessary to maintain operations.												
The Department is transferring this authorization to the ACC. The ACC is a centralization point in coordination of transportation for offenders.

Correctional Officer positions have been created to reduce overtime usage and reduce officer burnout. An independent study of security posts at this institution revealed that the facility is understaffed. The department is engaged in an aggressive recruitment campaign to fill existing vacant and new security positions. The new positions will serve to increase public protection and officer safety; positively impact officer retention; and to comply with legislative intent language to reduce overtime. The positions are funded from existing lump sum premium pay. (PCN's 20-#019, 20-#020, and 20-#021).

Correctional Officer positions have been created to reduce overtime usage and reduce officer burnout. An independent study of security posts at this institution revealed that the facility is understaffed. The department is engaged in an aggressive recruitment campaign to fill existing vacant and new security positions. The new positions will serve to increase public protection and officer safety; positively impact officer retention; and to comply with legislative intent language to reduce overtime. The positions are funded from existing lump sum premium pay. (PCN's 20-#023, 20-#024 and 20-#025).

Correctional Officer positions have been created to reduce overtime usage and reduce officer burnout. An independent study of security posts at this institution revealed that the facility is understaffed. The department is engaged in an aggressive recruitment campaign to fill existing vacant and new security positions. The new positions will serve to increase public protection and officer safety; positively impact officer retention; and to comply with legislative intent language to reduce overtime. The positions are funded from existing lump sum premium pay. (PCN's 20-#032 and 20-#033).

This technical adjustment is transferring the GF authorization received within the Institution Director's Office to meet increased heating fuel costs to the Spring Creek Correctional Center (SCCC). This adjustment should have been completed during the FY2006 Management Plan process.

After reviewing a comparison of heating fuel/gas expenditures from FY2004 and FY2005 of the 24-hour facilities, the SCCC reflects an increase in heating costs of 36%. Transferring this authorization to the SCCC reduces the increased percentage to approximately 22%. This will bring SCCC in-line with the average increases at other institutions.

Correctional Officer positions have been created to reduce overtime usage and reduce officer burnout. An independent study of security posts at this institution revealed that the facility is understaffed. The department is engaged in an aggressive recruitment campaign to fill existing vacant and new security positions. The new positions will serve to increase public protection and officer safety; positively impact officer retention; and to comply with legislative intent language to reduce overtime. The positions are funded from existing lump sum premium pay.(PCN's 20-#038, 20-#039, 20-#040, 20-#041 and 20-#042).

<p>Probation Officer caseloads are growing due to the increase in the number of prosecutions. This is a direct result of the addition of attorneys in the District Attorney's Offices in Kenai and Palmer. Also, the development of two specialized sex offender caseloads in Anchorage and the number of Rule 11 cases have increased the number of offenders on probation.</p> <p>The Department is requesting funding for seven new Probation Officers to meet the increased number of offenders under supervision.</p> <p>Four new positions will be established in Anchorage; two for the additional sex offender caseloads and two to absorb part of the high caseloads currently carried by existing Probation Officers.</p> <p>The three remaining positions are to be assigned to the Palmer area where escalating growth in this part of the State has contributed to the rising number of probationers.</p>
