Additional Information / Prior Funding History:

Project Description/Justification:

The Department requests that the \$10 million be allocated within the Surface Transportation appropriation for the Illinois-Barnette project. Illinois Street provides primary access to downtown Fairbanks from the north. Other important travel routes intersect Illinois and Barnette Streets, which add to the travel demands and safety concerns along this corridor. Pedestrian and bicycle facilities are inadequate or entirely absent, and the project supports efforts to address riverfront enhancements in the area where the corridor crosses the Chena River.

This additional federal authorization will allow construction of phase 1 (reconstruction of Barnette Bridge and roadway from 1st Ave. to Minnie St.).
