

State of Alaska FY2010 Governor's Operating Budget

Department of Public Safety Search and Rescue Component Budget Summary

Component: Search and Rescue

Contribution to Department's Mission

Preserve public peace; protect life, property, and resources.

Core Services

- Initiate search and rescue action for the recovery of lost or missing persons.
- Coordinate rescue operations for injured persons; conduct recovery operations for deceased persons.
- Coordinate small and large-scale responses to search and rescue events including resource management, interagency coordination, and the use of private resources, various agencies, and private persons.
- Reimburse public and private organizations for resources spent during search and rescue operations.
- Fund aircraft for search and rescue missions.
- Provide logistical support and technical expertise to local law enforcement and volunteer organizations, including provision of equipment, search management, and planning operational support.
- Train and support volunteer resources through professional conferences, local seminars, and practical exercises.
- Review training plans submitted by volunteer organizations.
- Manage worker's compensation program for volunteer search and rescue participants while engaged in search and rescue activities.
- Coordinate resources with the rescue coordination components of the Alaska National Guard and U.S. Coast Guard to meet the requirements of the National Search and Rescue Plan.
- Manage preventative programs to educate the public on wilderness-related risk and methods to mitigate risk and reduce the loss of life or injury to persons.
- Raise public awareness of avalanche hazards to improve the safety of skiers, snow machiners, and other winter recreationists in Alaska's backcountry areas.
- Provide tuition-free classes to target audiences, including high school students and young adults, in avalanche-prone areas of the state. Emphasis is given to areas having a history of avalanche-related emergencies.
- Address topics such as recognition of avalanche-prone areas, hazard assessment, use of avalanche transceivers, essential safety equipment, trip planning, and emergency procedures in the event of a life-threatening avalanche.

FY2010 Resources Allocated to Achieve Results		
FY2010 Component Budget: \$387,900	Personnel:	
	Full time	0
	Part time	0
	Total	0

Key Component Challenges

The Department of Public Safety, Division of Alaska State Troopers (AST), is the only state agency that is statutorily required to provide search and rescue operations for lost or missing, as well as deceased persons, on land. The U.S. Coast Guard has responsibility for search and rescues at sea, and frequently assists with searches along Alaska's coastline. The U.S. Air Force, assisted by the Civil Air Patrol, has responsibility for searches for downed or missing aircraft, and like the Coast Guard, frequently assists with aerial searches for individuals lost on land. Unlike criminal and traffic enforcement, and investigations where AST provides technical expertise and support to local police departments, AST bears sole responsibility for land-based search and rescue services regardless of location.

To perform this function, roles are somewhat reversed. AST receives assistance from local and volunteer agencies, but remains responsible for the search and rescue, even within municipalities and on military reservations.

Because of the environment in which Alaskans live and play, every search and rescue event is treated as an emergency. By definition, search and rescue missions are unpredictable, and require immediate response to assure public safety. If expenses related to search and rescue activity exceed available funds, additional funding has to be located, since the need to respond rapidly to search and rescue events does not end just because funds are used up. Search and rescue decisions are not based upon availability of funds, but upon the likelihood of mission success under acceptable (safety for searchers being a paramount concern) search conditions.

Maritime searches involving Coast Guard helicopters are not billed to AST; however, under certain circumstances inland searches involving National Guard helicopters are billed to AST and are quite expensive. Whenever possible, AST mitigates these expenses through reliance on DPS aircraft and the use of volunteer resources such as the Civil Air Patrol.

AST makes use of many of DPS's aviation assets during search and rescue operations. In particular, the division's sole day-and-night (IFR) capable helicopter is located in Anchorage. Due to its limited range, it is unavailable in most other areas of the state.

Significant Changes in Results to be Delivered in FY2010

The Alaska State Troopers will see its support of volunteer organizations increase in FY2010. With the passage of HB320, relating to search and rescue training and search and rescue parties, the Department of Public Safety is soliciting for a qualified individual to assist in the performance of the duties detailed in that legislation. This individual will assist in providing for increased training of Alaska State Troopers, Alaska Wildlife Troopers, and volunteer search and rescue organizations across the state. Further they will provide for search and rescue groups to participate in training by facilitating and coordinating with the volunteer organizations in the planning of training events.

Major Component Accomplishments in 2008

- Aircraft related cases investigated – 43
- Overdue hiker cases investigated – 47
- Overdue boater cases investigated – 71
- Overdue motorist cases investigated – 102
- Overdue snow machine cases investigated – 92
- Other search and rescue cases investigated – 385

The Department of Public Safety responded to 740 search and rescue related cases in FY2008. In these cases, 289 people were rescued.

The Department of Public Safety continues to support the Alaska Search and Rescue Association (ASARA), with coordination and administrative support. This statewide volunteer organization exists to support the education and training of search and rescue volunteer personnel in the state of Alaska. ASARA provides training in the following critical areas across the state:

- High angle rescue training
- Fundamentals of Search and Rescue courses
- Search and Rescue II and III training
- Man-Tracking / Track Awareness courses
- Advanced Tracking course
- Air operations survival
- Wilderness survival training
- K-9 tracking and searching courses
- Avalanche training
- Rope rescue training

During FY2008, volunteers received training under these programs, along with organized semiannual training exercises to ensure operational proficiency within the search and rescue arena.

Volunteer groups have increased their skill levels substantially and have expanded their activities across the state to further the mission of the department.

Statutory and Regulatory Authority

DPS-Powers and duties of department (AS 44.41.020)
 State Troopers (AS 18.65.010 - AS 18.65.110)
