None.

**Project Description/Justification:**

Rebuilding this section of roadway will complete reconstruction of the remaining section of highway from town to the ferry terminal, streamlining access to the ferry system and other port facilities. Pedestrian safety is vastly improved, as is transport efficiency.

This project meets the prioritization criteria of serving an economically distressed area, provides logistics benefits for the gas pipeline development, and can turn dirt in 2009. Advertising of this project is estimated to take place in April, 2009.
