

Agency: Department of Education and Early Development

Project Title:

Project Type: Equipment and Materials

Alaska Gateway School District - Dot Lake School Playground Equipment

State Funding Requested: \$30,000
One-Time Need

House District: 6 / C

Brief Project Description:

The playground at Dot Lake needs to be replaced because of potential safety concerns that might arise from worn out equipment. The current playground equipment has been at Dot Lake School since the school was built in 1983.

Funding Plan:

Total Cost of Project: \$34,000

	<u>Funding Secured</u>		<u>Other Pending Requests</u>		<u>Anticipated Future Need</u>	
	<i>Amount</i>	<i>FY</i>	<i>Amount</i>	<i>FY</i>	<i>Amount</i>	<i>FY</i>
Local Funds	\$4,000	2010				
Total	\$4,000					

Explanation of Other Funds:

The district will utilize local funds to complete the project.

Detailed Project Description and Justification:

The playground equipment at Dot Lake School needs to be repaired or rebuilt each summer by the maintenance department because of worn out equipment that has reached maximum usage. Some of the playground structures are built from wood and repairs are no longer an option. The district has received appropriations for both Walter Northway School in 2007 and Tok School in 2008 to replace and/or upgrade these school playgrounds. The installation of these new playgrounds has and will continue to reduced safety concerns for children. There were no appropriations for the district in 2009. Attached is a picture of the playground equipment (A-1) for potential purchase, a diagram of the playground (A-2) and a billing for the Tok School playground equipment (A-3) purchased last May. The district will utilize local hire and/or summer staffing to assist with the installation of the purchased playground equipment.

Project Timeline:

The playground equipment would be purchased and installed as soon as the appropriation was awarded, preferable this summer. However, if the award notice was after a time the playground equipment could not be put together and shipped in time for a summer or early fall installation the project would be completed during the summer of 2011 with all funds spent by September 1st, 2011.

Entity Responsible for the Ongoing Operation and Maintenance of this Project:

The Alaska Gateway School District

Todd Poage, Superintendent

February 26th, 2010

Senator Kookesh
Representative Salmon
Alaska State Capitol
Juneau, AK 99801-1182

Dear Senator Kookesh and Representative Salmon,

The Alaska Gate School District supports the Dot Lake School Playground Equipment Purchase because of potential safety concerns that have arisen from worn out equipment. The current playground equipment has been at Dot Lake School since the school was built in 1983. AGSD very much appreciates your support regarding the education and safety needs in our schools and communities.

The playground equipment at Dot Lake School needs to be repaired or rebuilt each summer by the maintenance department because of worn out equipment that has reached maximum usage. Some of the playground structures are built from wood and repairs are no longer an option. The District has received appropriations for both Walter Northway School in 2007 and Tok School in 2008 to replace and/or upgrade these school playgrounds. The installation of these new playgrounds has and will continue to reduce safety concerns for children. There were no appropriations for the District in 2009. Attached with the grant request TPS Number 54205 is a picture of the playground equipment (A-1) for potential purchase, a diagram of the playground (A-2) and a billing for the Tok School playground equipment (A-3) purchased last May. The district will utilize local hire and/or summer staffing to assist with the installation of the purchased playground equipment.

The playground equipment would be purchased and installed as soon as the appropriation was awarded, preferable this summer. However, if the award notice was after a time the playground equipment could not be put together and shipped in time for a summer or early fall installation the project would be completed during the summer of 2011 with all funds spent by September 1st, 2011. The Regional School Board approved this capital project request at the February 15th, 2010 regular meeting.

Thank you for your time and effort during the legislative session and consideration for the requested grant funds. If you have any questions, contact me at your earliest convenience.

Respectfully,
Todd Poage
Todd Poage,
Superintendent
