

**Ketchikan: Replace Cruise Ship Berths I and II****FY2011 Request: \$6,000,000****Reference No: 47828****AP/AL:** Allocation**Category:** Development**Location:** Ketchikan**House District:** Ketchikan (HD 1)**Estimated Project Dates:** 07/01/2010 - 06/30/2015**Appropriation:** Cruise Ship Related Projects**Project Type:** Renewal and Replacement**Recipient:** City of Ketchikan**Contact:** JoEllen Hanrahan**Contact Phone:** (907)465-2506**Brief Summary and Statement of Need:**

Construct two new Cruise Ship Berths to replace existing deteriorated Berths I and II. Both existing berths are in advanced stages of structural deterioration. The two berths are primary use cruise ship berths in downtown Ketchikan. Failure to replace these berths in a timely manner will adversely impact both cruise lines and the community tourism industry. This program contributes to the department's mission of promoting a healthy economy and strong communities by providing economic growth in the communities it serves.

**Project Description/Justification:**

The Port of Ketchikan has determined that there is an immediate need to replace the wooden sections of Berths I and II, which are exhibiting advanced stages of structural deterioration. Following a dive survey in the fall of 2007, emergency repairs were performed over the winter to reopen the docks to tour bus traffic for the 2008 season. A second dive survey was conducted in the fall of 2008 and additional repairs were performed this past winter.

In their current condition, the wooden portions of Berths I and II have required repairs totaling \$2.8 million over the past two winters to restore weight limits adequate for emergency vehicle and tour buses to be able to operate on the docks. Continued preservation of the wooden portions of the docks does not constitute a cost effective solution, as similar off-season repairs will be necessary almost every year.

The structural deterioration of Berths I and II has become a critical issue for the community. These docks are essential to the continuing health of the local economy and must be replaced with modern

and safe facilities. Given the decline of the timber and fishing industries in southeast Alaska, tourism has become the mainstay of Ketchikan's local economy. In 2008 over 940,000 cruise ship passengers arrived in Ketchikan, with over half of them disembarking at either Berth I or Berth II.
