**Project Description/Justification:**

This project would complete construction of a commercial dock and staging area, enhancing the port's services to commercial passenger vessels and tour vendors. This includes dock space for tenders, moorage for smaller cruise ships, direct access to charter vessels and staging areas for passengers.

Petersburg has served as a port of call for several cruise lines, including Norwegian, Linblad, Safari, and Cruise West. Additionally, the community offers cruise passengers a variety of shore excursions and cultural opportunities. Completing the commercial dock will greatly improve the port and lightering services available to cruise ships and make Petersburg more accessible, allowing for expanded commercial passenger vessel traffic, improved vessel services, and help create tourism jobs in the community.
