Project Description/Justification:**Motor Carrier Safety Assistance Program (MCSAP) - \$400,000****(FMCSA 80% / State Match 20%)**

The MCSAP is a federal grant program that provides financial assistance to states to reduce the number and severity of accidents and hazardous materials incidents involving commercial motor vehicles (CMV). The goal of the MCSAP is to reduce CMV-involved accidents, fatalities, and injuries through consistent, uniform, and effective CMV safety programs. Investing grant monies in appropriate safety programs will increase the likelihood that safety defects, driver deficiencies, and unsafe motor carrier practices will be detected and corrected before they become contributing factors to accidents.

The MCSAP also sets forth the conditions for participation by states and local jurisdictions and promotes the adoption and uniform enforcement of safety rules, regulations, and standards compatible with the Federal Motor Carrier Safety Regulations and Federal Hazardous Material Regulations for both interstate and intrastate motor carriers and drivers.
