Detailed Project Description and Justification:

<p>Fairbanks Community Behavioral Health Center requests an FY13 Capital Improvement Program grant to purchase 10 laptop computers for use by their management team. Currently, management team members utilize their own computers and other technology resources due to funding constraints within the organization. Members of the management team work long hours both inside and outside the facility. The use of personal technology resources can often make the process more complicated as adjustments must be made for formatting, accessing information and coordinating compatibility between resources.</p>
