Anchorage - Campbell Creek Stormwater Mitigation

State Funding Requested: \$200,000
One-Time Need**House District: Anchorage Areawide (11-27)****Brief Project Description:**

The project will study the impacts of heavy rain/snow events on the Campbell Creek basin in ARDSA and make recommendations to reduce the negative impacts of future precipitation events.

Funding Plan:

Total Project Cost:	\$200,000
Funding Already Secured:	(\$0)
FY2014 State Funding Request:	<u>(\$200,000)</u>
Project Deficit:	\$0

Detailed Project Description and Justification:

The project will study the impacts of heavy rain/snow events on the Campbell Creek basin in ARDSA and make recommendations to reduce the negative impacts of future precipitation events.

The project has not started. State grant funding is proposed.

The heavy rains of 2012 produced flooding and later glaciation that posed a danger to properties along the creek. A thorough analysis of the creek and its flooding potential is needed along with recommendation for solutions to alleviate future potential flooding and ice build up.

Grant funding may be used for planning, design, study, and any type of improvements to the Campbell Creek drainage basin.

Project Timeline:

Design, study, and construction expenditures are anticipated in 2014 and 2015.

Entity Responsible for the Ongoing Operation and Maintenance of this Project:

Municipality of Anchorage

Grant Recipient Contact Information:

Name:	Gary Jones
Title:	Capital Program Coordinator
Address:	4700 Elmore Rd Anchorage, Alaska 99507
