de funding to cool existing data closets. Data closets house sensitive electronic equipment that should maintain temperatures no higher than 77-degrees. Temperatures in these rooms are consistently over 80-degrees and can reach into the 100's. This would provide funding for multiple closets to be cooled.

**Benefits if Project is Funded**

The benefits of this project will be the safety of sensitive electronic equipment and reduction of damage to this equipment due to high temperatures in the data closets.

**Impacts if Project is not Funded**

If not completed the data closets will remain as they are and there will be continual losses of the electronic equipment.
