Has this project been through a public review process at the local level and is it a community priority? Yes No

Location **Lake Otis Elementary School**

Project Title: **Upgrade Computer Lab**

Amount of Funding Requested \$10,450.00

Total Funding to complete project \$10,450.00

Primary House District: 15 **Secondary House District(s):** 16, 17

Primary Senate District: H **Secondary Senate District(s):** I

Project Description

Principal's Priority 1

Lake Otis has been able to convert one of the available classrooms into a computer lab. This room was not designed to be a computer lab, so much of the furniture and layout has been makeshift. Many of the computers sit on folding tables where cords and wires are loose and hang low. The room also does not have a teacher work station with an interactive display which makes it difficult to use the lab for demonstrations. The request is to purchase furniture that is appropriate to the room and install an interactive display.

Benefits if Project is Funded

Having an up-to-date computer lab will enhance the instructional opportunities when teachers are using technology for classroom instruction and projects. The layout will also be more preventative of computers being knocked over and damaged. If this project is not completed teachers will be less likely to use the lab as an instructional tool to support learning key technological skills for success.

Impacts if Project is not Funded

of Students impacted by project 425

Project Start Year 2013

Project Finish Year 2014

Project has matching funds are available **No**

Project has prior state funding available **No**

Project has federal funding available **No**

Project has had a public review process **Yes**
