Wales - Honey Bucket Haul Vehicle and Equipment Upgrade

State Funding Requested: \$75,000**House District: 39 / T**

One-Time Need

Brief Project Description:

Purchase of new Honey Bucket Haul vehicles, bins and hauling trailer.

Funding Plan:

Total Project Cost:	\$75,000
Funding Already Secured:	(\$0)
FY2014 State Funding Request:	<u>(\$75,000)</u>
Project Deficit:	\$0

*Funding Details:**There is no other funding; materials will be bought asap.***Detailed Project Description and Justification:**

The City of Wales is requesting an upgrade of our Honey Bucket Haul Equipment. The age of the equipment is becoming a factor in keeping the service operational. The Honey Bucket Haul bins and haul trailer take quite a beating of the every day use of hauling human waste and grey water. The upgrade of equipment would provide a cleaner and more reliable service to the community of Wales.

The current vehicles in service (1 four wheeler and 1 snow mobile) need replacement and there are no other vehicles to support the service. The two vehicles must be funded in order to preserve the service or there will be no service. This will create a very grave health problem and especially if left up to the general public to dispose of this waste. Therefore we are requesting the funds to replace these vehicles and provide a much needed service for our community of Wales.

Project Timeline:

The order for equipment will be sent asap funding is received equipment will be shipped as soon as order is received.

Entity Responsible for the Ongoing Operation and Maintenance of this Project:

City of Wales
