Napaskiak - Replacement Generators

State Funding Requested: \$200,000
 One-Time Need

House District: 36 / R

Brief Project Description:

Replacement of Generators for City of Napaskiak.

Funding Plan:

Total Project Cost:	\$200,000
Funding Already Secured:	(\$0)
FY2014 State Funding Request:	<u>(\$200,000)</u>
Project Deficit:	\$0

Detailed Project Description and Justification:

The City of Napaskiak has recently discovered their two generators are on the verge of collapse.

A February 7 power outage resulted in rolling electrical coverage in the City for six days. After assistance from AEA, they were able to return power to the entire City. In the meantime, a small generator was used to power approximately 1/3 of the homes at a time. Basically, that means residents were able to use power 8 hours a day, with the homes dark the rest of the time.

Project Timeline:

Generators will be purchased as soon as funding is secured.
