**Project Description/Justification:**

The current Fairbanks Armory does not meet the size requirements for the units that are assigned to that location. A renovation or expansion is not feasible due to the constraints of the current property size and surrounding ball fields and residential development. The project will identify new locations suitable for a larger, more modern Alaska Army National Guard facility. Once suitable locations are identified the planning of a new facility will begin to site adapt current facility designs while conforming to the local zoning and permitting process.
