Project Description/Justification:

All urbanized areas having a population over 50,000 must have a Metropolitan Planning Organization (MPO) to carry out a continuing, comprehensive, and cooperative transportation planning process. This federal highway program provides funds for local government transportation planning, special studies, and rideshare. Primary recipients are the Anchorage Metropolitan Area Transportation Solutions (AMATS) and Fairbanks Metropolitan Area Transportation Study (FMATS). The funds enable local governments to meet federal planning requirements including: data collection and analysis, long-range transportation planning, specialized and sub-area studies, consultation and coordination, public involvement, air quality planning, and local transportation improvement program development.
