Centralized Federal Grants Accounting

PCN 08-2235, Administrative Manager I, is transferred from the Division of Tourism to the Division of Administrative Services. The position is reclassified to an Accountant III. The position is better located in the Division of Administrative Services to provide more centralized administrative support for complex financial programs/projects. The department has decided to centralize all federal grants accounting in the Fiscal Section, which has historically required higher level accounting expertise and significant effort on behalf of the division administrative managers. Increased efforts to secure federal funding and the added responsibility of the federal grants accounting being brought in with the consolidation make this critical. Centralizing this function allows the department to ensure uniform federal grants accounting and control.												
Centralized Administrative Support-Publications Specialist

The Publications Specialist II (PCN 08-2237) in the Division of Tourism has been increasingly used for departmentwide projects. This includes: web page development, publications and reports creation, and printing layouts (letterhead, business cards, envelopes, ..etc.) The predominant work no longer comes from the Division of Tourism. The department has decided that this position provides centralized administrative support, and would best be located in the Division of Administrative Services, funded from interagency receipts.

As part of the HB40 consolidation, a PPT Human Resources Manager I (PCN 21-2008) was transferred to the Department of Community and Economic Development. Insufficient funds are available in the FY2000 operating budget for the Division of Administrative Services to fund all positions transferred in by HB40. The Human Resources Section already had a PFT Human Resources Manager II and is sufficiently staffed to handle the consolidated agency workload. The PPT Human Resources Manager I (PCN 21-2008) is deleted in FY2000.

<p>\$18.5 International Trade and Business Endowment authorization is transferred from contractual services to personal services to fund shortfall at the current staffing level. This position had been requested in the Governor's FY2000 budget to correct for a fiscal note that was omitted from the FY1999 appropriation bill. The position was included in the House Finance FY2000 budget for the division, but was deleted in Senate Finance. When the authorization was moved to the front section of the operating budget bill, the full amount of personal services was restored, including the funding for this position. The position adjustment, however, was not made.

<p>The division requests an increment to fund one assistant attorney general and one paralegal in the Department of Law. All of the essential activities of the division and licensing boards depend on legal assistance from the Department of Law. Enforcement of licensing laws and minimum standards of competence is being seriously weakened by a backlog of cases. Few, if any, cases of unlicensed activity have been prosecuted in the past five years. Citizen complaints against professionals must often be closed after investigation due to a lack of legal resources to follow through with formal charges. Legal review of regulations adopted by boards is delayed for many months and board requests for legal advice cannot be satisfied. An additional attorney and paralegal would greatly assist the division and licensing boards in meeting our responsibilities for public protection.</p>

<p>Many of the division's twenty-one licensing boards are frustrated by their inability to effectively represent Alaska in the national organizations that influence regulatory policy due to lack of travel funds. Currently, each Alaska board is permitted to send a single member to one national meeting at state expense. The division requests authorization to spend license fees to fund travel and registration for board member participation in twenty-five national conferences. These trips would be allocated among the Alaska boards.</p>

<p>The Board of Nursing requests authorization to use license fees to fund the Alaska Colleagues in Caring project. Colleagues in Caring is a consortium of nurses, educators, hospitals and other employers formed with seed grants from a private trust. The goal of the group is to ensure an adequate supply of nurses to meet Alaska's future needs. Research into the nursing supply was completed with the initial three-year grant. Without funding by nurses through their fees, Colleagues in Caring will be unable to continue its work by developing programs to respond to the projected nursing shortage.</p>

<p>This transfer is part of a new facilities rent structure designed to improve the condition of state buildings and help prevent additional deferred maintenance problems. General funds now spent by DOA and DOT/PF on building maintenance and operations for eight buildings in the facilities rent pool are being transferred from DOA and DOT/PF to the agencies occupying these buildings. The agencies will pay rent for their space, allowing the state to recover an estimated \$1.5 million (statewide) in federal and other non-general funds to invest in maintenance, renewal and replacement for the building pool.</p>

The legislature directed an MIS to be developed to provide more information to the public about the RCA decision-making process and to manage the agency's workload more efficiently. FY99 Rollforward money was used for FY00 to purchase the components of a new system. There are additional costs associated with bringing the system up and some additional recurring expenses. An additional \$48,500 to hire an Analyst I is included. The Information Services section needs additional staff to support and maintain the MIS. There currently are two IS staff, a third is needed to support the system. An estimate of annual Maintenance Agreement/Training/Software expenses for the new system is \$36.5.

The legislature separated the staff who represent the public interest as independent parties in cases presented to the RCA. That separate section needs an attorney (\$134), and a budget (\$95) to hire expert witnesses/consultants to support their cases.

The legislature directed The RCA to co-locate with the AOGCC. There is not room at the current location for both agencies. The current rental rate is below market, and it is assumed that market rates will be paid when the move takes place. Annual lease costs will increase \$115. Non-recurring costs of equipment (sound system and phone upgrades), furniture, and supply costs associated with moving estimated at \$90.

<p>PCN 08-2235, Administrative Manager I, is transferred from the Division of Tourism to the Division of Administrative Services. The position is reclassified to an Accountant III. The position is better located in the Division of Administrative Services to provide more centralized administrative support for complex financial programs/projects. The department has decided to centralize all federal grants accounting in the Fiscal Section, which has historically required higher level accounting expertise and significant effort on behalf of the division administrative managers. Increased efforts to secure federal funding and the added responsibility of the federal grants accounting being brought in with the consolidation make this critical. Centralizing this function allows the department to ensure uniform federal grants accounting and control.</p>

<p>The Publications Specialist II (PCN 08-2237) in the Division of Tourism has been increasingly used for departmentwide projects. This includes: web page development, publications and reports creation, and printing layouts (letterhead, business cards, envelopes, ..etc.) The predominant work no longer comes from the Division of Tourism. The department has decided that this position provides centralized administrative support, and would best be located in the Division of Administrative Services, funded from interagency receipts.</p>
