**Additional Information / Prior Funding History:**

**Project Description/Justification:**

This project will completely overhaul the 12-year-old, complete system which began failing in 1995 and is again in imminent danger of failure. This could result in emergency closure of the 16-year-old, 32,750 square foot school and the pollution of McNeil Creek, private property downstream, and, ultimately, Kachemak Bay. Proposed cost: \$179,000.
