Additional Information / Prior Funding History:

Project Description/Justification:

This project will replace the existing patchwork of school buildings totaling 31,347 square feet and some sections built in 1952, with a new 63,784 square foot K-12 on a new site. The existing facility is poorly located and floods on an average of once every three years. It does not meet fire code, has no sprinkler system, and is currently at 167 percent capacity with student population expected to grow at 6.61% annually. Proposed cost: \$25,537,805.
