Prior Funding History / Additional Information:

FY2001 - \$150,000 Federal and \$30,000 Corporate; Prior funding for this program has been included in past operating budgets under revised programs (RPL).

The purpose of this program is to allow the State to participate in special project grants offered by the Federal Department of Energy to promote energy related technologies and research.

The projected outcomes are advancements in:

- Building technologies
- Codes and Standards
- Wind and Power technologies
- Renewable energy for remote areas
- Transportation technologies

The Department of Energy provides competitive grants to State Energy Programs for specific activities including, building technologies, Codes and Standards, Wind, Power technologies, renewable energy for remote areas, transportation technologies. DOE solicitations for these special projects occur typically in January or February. Awards are made in June. AHFC has been successful in obtaining special projects awards over the for wind monitoring, codes and standards, and a seafood processing audit program. Approximately \$14 million dollars are made available annually for these types of grants to all States on a competitive basis.
