Brief Summary and Statement of Need:

Construct a facility to centralize security, safety, communications and key Airport emergency response functions and equipment. This facility supports emergency control and communications to effectively support crisis management teams. It evaluates and includes centralizing other Airport services such as safety, security, facilities, field maintenance, and other Airport administrative/support services. It includes equipment such as surveillance cameras, multi-utility flight information systems (MUFIDS), data systems, communications upgrades, premise wiring, security/access controls, and technology enhancements throughout the terminal and airfield to upgrade safety and security.
