**Brief Summary and Statement of Need:**

Amendment #13: This project will upgrade the 14,352 square foot, 45-year-old facility to meet Uniform Building Code and ADA standards. Many code violations exist. The exits are too narrow and most windows are inoperable and beyond repair. Loss of heat from concrete block structural walls is significant, and no ventilation system exists. Also, the building was designed as an elementary school only, so no space exists for a computer lab, or rooms for science, special education, remedial reading, bilingual/multicultural studies, music or art.
