Estimated Project Dates: 07/01/2001 - 06/30/2006

Brief Summary and Statement of Need:

Amendment #13: The main design of this project is protection of the existing structure at the 30 year-old, 47,388 sf facility. Inspection reports indicate that the existing roofing system has suffered structural damage to the wood framing due to moisture rot and corrosion of steel beam support seats. If necessary, a new timber-framed roof will be installed over the existing framing after complete replacement and repair of the existing structural roof elements.
