Brief Summary and Statement of Need:

Amendment #13: The District intends to replace the 34 year-old, 7,167 square foot elementary school and the 18 year old, 4,515 square foot high school with a 28,372 square foot K-12 facility. The elementary school was constructed by the BIA and has outlived its useful life. The foundation system of the existing high school is in such poor condition that it will be more cost effective to construct new rather than renovate the existing building. The existing structures will be abated of hazardous materials and then surplus. Current enrollment is at 199 percent capacity and is expected to reach 282 percent capacity by FY2008.
