### **Component Mission**

To provide market driven vocational/technical training in rural Alaska and to create an environment which promotes commitment to education and career opportunities.

### **Component Services Provided**

The Alaska Technical Center (ATC) in Kotzebue provides residential adult vocational training through the Northwest Arctic Borough School District. ATC operates programs in building industrial technology, office occupations, mine maintenance technology, and health occupations in addition to short-term training in response to statewide industry needs. ATC provides an employability component that includes training in the following areas: resume writing, job interview skills, standard first aid and CPR, and driver's education. This training component improves communication skills and prepares students for the job market.

### **Component Goals and Strategies**

To increase the number of qualified Alaskans to meet industry employment demands and assist Alaskans in obtaining successful employment.

1. Increase the number of students completing programs and obtaining certifications
2. Improve skill level of students completing training
3. Increase business partnerships

### **Key Component Issues for FY2001 – 2002**

A consistent level of funding is critical for ATC to be able to maintain the integrity of the existing programs while continuing to improve the quality of training and job placement rates. Adapting training courses to meet industry needs is essential to providing job opportunities for students. Maintenance of ATC's facilities is also an on-going issue, and funding has not been sufficient to address deferred maintenance projects.

### **Major Component Accomplishments for FY2000**

- \* Provided 200 students long-term training.
- \* Provided 800 students short-term training.

### **Statutory and Regulatory Authority**

None.
