Estimated Project Dates: 07/01/2001 - 06/30/2006

Appropriation: Airport Improvement Program

Brief Summary and Statement of Need:

The Airport Rescue and Firefighting (ARFF) building office area was constructed during the 1960's and has undergone one major remodel. The current badging office, training room, and kitchen areas are to be remodeled under this project. The existing badging office is undersized and lacks adequate ventilation. The new badging office, located on the first floor, will also serve as office space for the clerical position assigned to the FIA Safety section and will be ADA accessible. The floor and ceiling finishes in the kitchen and training rooms will be replaced and HVAC systems servicing these areas will be improved to provide adequate ventilation and temperature control.
