

# **State of Alaska FY2002 Governor's Operating Budget**

Department of Transportation/Public Facilities  
Statewide Planning  
Component

## **Component: Statewide Planning**

### **Contact: Tom Brigham, Director**

**Tel:** (907) 465-6978 **Fax:** (907) 465-6984 **E-mail:** Tom\_Brigham@dot.state.ak.us

## **Component Mission**

The mission of Statewide Planning is to optimize state investment in transportation and meet federal requirements through effective planning and programming.

## **Component Services Provided**

- · Develop area-specific transportation plans to guide transportation infrastructure development over the next 20 years.
- · Coordinate the development, submission, and monitoring of the Needs List, and the federally required Statewide Transportation Improvement Program, as well as the annual capital budget. Provides key analyses to the Commissioner on critical issues regarding capital funding for Alaska's transportation and public facility needs.
- · Provide federally required highway data collection and analysis to state, federal and local agencies.
- · Provide Geographic Information System (GIS) and Global Positioning System (GPS) data collection and analysis, as well as cartographic and other technical services. The result will be more accessible transportation data that can be displayed in easy-to-understand ways.
- · Develop and maintain the Statewide Transportation Plan, Public Involvement Plan, and Federal Transit Program.
- · Provide administration of Scenic Byways Program, Federal Railroad Administration grants. Provide support to the TRAAK Program. Develop and maintain Bicycle and Pedestrian Plan.
- · Provide administration of Urban Planning, and State Planning and Research Program, as well as general accounting and administrative support.
- · Develop and administer the State Highway Safety Program.

## **Component Goals and Strategies**

Maintain cooperative planning processes with local governments, state and federal agencies, and within DOT&PF.

- · Provide the legislature, local governments, other agencies and private citizens with a central point of contact to facilitate the exchange of planning and capital project related information with the department
- · Coordinate access to the DOT&PF decision-making process with these groups;

Meet requirements of the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) and maximize the state's capture of federal funds each year.

- · Collect traffic and highway inventory data.
- · Coordinate transportation information and planning with local governments.
- · Implement public involvement procedures.
- · Develop the Statewide Transportation Plan (SwTP).
- · Develop the Statewide Transportation Improvement Program (STIP).

Provide effective transportation and public facilities construction and maintenance programs.

- · Prepare a capital improvement program to address improvement needs for roadways, ports and harbors, erosion control, pathways, barrier-free access, marine highway system, and other public facilities.

Promote saving lives and reducing motor vehicle injuries on the Alaska highway network.

- · Produce annual highway safety plan and annual report.
- · Promote statewide outreach and education programs.
- · Promote new safety technology.
- · Integrate public health strategies into community safety programs.

### **Key Component Issues for FY2001 – 2002**

- · Passage of the 1991 and 1998 Federal Transportation Bills, Federal Transportation Equity Act for the 21st Century (TEA21), expanded the requirements to inform and involve the public in development of transportation plans and programs. As a result, the statewide and regional planning staff institute a greatly expanded public involvement program that includes holding multiple meetings throughout the region and other communications with local government and the general public. Planning staff then evaluate and rank all projects to identify the highest priority projects that are to compete statewide for federal highway funding. The new Federal Transportation legislation is expected to continue to significantly increase federal funding for transportation in Alaska.
- · Annual general fund levels have decreased to the point that activities and program areas not directly supported by planning grants received from the Federal Highway Administration (FHWA) or the Federal Aviation Administration (FAA) will have to be deferred. Included in this category is work associated with erosion control, ports and harbors.
- · Sampling requirements for FHWA data collection have increased. The department has been able to accomplish some savings through installation of automated traffic recorders. Installation of new equipment has been accomplished under "one-time" capital projects. As the national highway system matures, these recorders will need routine maintenance and replacement.
- · The State's ports and harbors represent a significant financial investment and are an important element in the continued health of the commercial and recreational fishing industries. Unlike Alaska's federal-aid highways and airports, port and harbor facilities do not have an annual source of state-administered capital funding.
- · The Division of Statewide Planning will be completing work on three long range transportation plans for Southwest Alaska, the Yukon-Kuskokwim Delta area, and the Prince William Sound/Cooper River area. Work will be started on the Northwest Area Plan in 2000. These plans develop the 20-year transportation investment strategies for road, ferry, rail and air modes utilizing extensive local public involvement.
- · The Alaska Highway Safety Office identified major driver behavioral problem areas as the following categories: high-risk youth and young drivers; major urban areas with communities that have become recreational destinations; and the Municipality of Anchorage traffic congestion. Lack of child car seat and seat belt usage continues to be an issue.

### **Major Component Accomplishments for FY2000**

- Completed the Statewide Transportation Long Range Plan (SwTP), 20 year horizon
- · Prepared multiyear, federally required, Statewide Transportation Improvement Program (STIP)
  - · Completed the development of the Southeast Transportation Plan
  - · Initiated regional transportation plans for Prince William Sound/Cooper River, Yukon-Kuskokwim Delta, Southwest Alaska, and Northwest Alaska.
  - · Established structure for Alaska Transportation Infrastructure Bank
  - · Began creation of Department Geographic Information System.
  - · Received a commendation from Federal Highway Administration for Highway Performance Management System data submittal.
  - · Increased seatbelt usage and traffic enforcement statewide through safety education programs.
