An FY2002 increment of \$200.0 in general funds was approved for 24-hour capability for the State Emergency Coordination Center (SECC); however, the associated positions were not added. These positions are needed to maintain the around-the-clock readiness. Full-time professional staff are needed for a coordinated response by multiple local, state, federal, volunteer, and private organizations.

<b>Retirement Records Administration for Army and Air Guard Members</b>												
1004 Gen Fund	Inc	60.0	51.0	0.0	4.0	5.0	0.0	0.0	0.0	1	0	0

The Alaska Air and Army National Guard Headquarters are responsible for the management of all state retirement records for Air and Army National Guard employees. Currently, there is no State of Alaska employee to manage this state program.

The Air and Army National Guard maintains an active record base of over 3800 members. They also maintain over 108,000 inactive records. The scope of state records management is extensive. Each time a personnel action occurs during the career of an Alaska National Guard member, a corresponding change must occur in that person's state retirement record. Records management also encompasses calculation of retirement eligibility, performing periodic state records audits, and writing and filing any state awards. Perhaps the most critical duty in records maintenance is calculating accurate retirement points for computing guard members retirement benefits.

Many of these records transactions take hours to accomplish. Federal employees, to the detriment of their primary duties, have performed these actions to date, but will not continue to do so in the future as this is not part of their budgeted mission.

It is critical to establish a State of Alaska employee to administer this state program. It is vital that the State of Alaska recognize and reward the loyal service our Guard members perform by providing personnel to manage their records.

<b>Add position for federally-funded environmental program</b>												
	PosAdj	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	1	0	0
An Environmental Specialist position was added to the Army Guard staff based on the updated federal National Guard Bureau's Army Environmental personnel manning model. The model provides for additional personnel based on increased environmental requirements.												
This 100% federally funded position provides project support for site inspections, obtaining wetlands permits, maintaining document inventory, and contracts oversight. The position will be responsible for establishing and increasing internal environmental inspections. Without this position, statutory and regulatory required tasks will not be performed, leading to increased "Notice of Violations", with associated fines and potential criminal liabilities.

1002 Fed Rcpts		800.0										
The Army Guard Facilities Maintenance Division (FMD) may receive up to \$1,000.0 in additional federal receipts after the mid-point of a fiscal year. The funds are available to states that have outstanding projects and are able to expedite the projects in a short amount of time. The Army Guard has requested an \$800.0 federal increment, which combined with a \$200.0 line item adjustment makes the \$1,000.0 authorization in the contractual services line item available to accomodate these "last-minute" federal budget adjustments. If the authorization to receive and expend the federal authorization is available, the Army Guard component has the ability to compete with the other states for those additional funds. The funds are specifically used for Real Property Operations and Maintenance projects (RPOM). They are known throughout National Guard Bureau as a PLUS-UP, for they actually increase the regular amount of federal funding provided to a given state. No state match is required to receive these additional funds.												
The projects may require certain criteria, such as to be energy-related, and must be used for that specific purpose.

July, 2001 outlines the specific services and uses of the Ted Stevens Anchorage International Airport, in relation to the Alaska Air National Guard.												
This agreement was entered into under the direction of the Attorney General's Office which determined that the Ted Stevens Anchorage International Airport is operated as an enterprise fund and should not subsidize other state agency uses of the facilities.												
There are no new or additional services provided under the agreement. The agreement specifies how the costs are allocated and results in the DMVA Air Guard paying the airport joint use fee of \$168.3 to DOT/PF. This increment covers that fee.

1002 Fed Rcpts		-133.1										
1007 I/A Rcpts		-70.0										

The federal National Guard Challenge base grant is \$2.1 million. In previous years Alaska Military Youth Academy has received some additional federal funds from the NGChallenge program when other states could not fully utilize their grants. Given that these additional federal funds are not a guarantee, \$133.1 of excess federal authority is deleted.

The Migrant Education Grant from the Department of Education estimated at \$70.0 in Inter-agency Receipt authority is not anticipated, resulting in a deletion of this authorization.

Three non-permanent positions that had been established to work on these projects are deleted.

(PCN's in ABS are 09-NP12, 09-NP13 and 09-NP14).

**Net Adjustment to Line Items and Positions to Meet Budget Plan**

LIT	0.0	417.8	18.2	4.0	0.0	0.0	-440.0	0.0	4	0	-4
-----	-----	-------	------	-----	-----	-----	--------	-----	---	---	----

The transfer from the grant line-item into the personal services is needed for:

1. Loss of unrealized federal & Inter-agency Receipts - \$203.1  
(See decrement)
2. Four Team Leaders in the female Platoon to become permanent - \$168.2
3. Other changes: balance of switch to classified, step increases... - \$ 46.5  
     Total Personal Svcs - \$417.8

Because of increased enrollments the non-perm positions are currently being utilized on a full-time basis and need to be converted to permanent status under collective bargaining requirement. Four of these positions are team leaders for the female platoon, which had been working with four full-time and four non-permanent team leaders. Each platoon requires eight full-time team leaders to cover the 24/hour/day, 7/day/week staffing requirements.

Increased travel is anticipated for staff program meetings and conferences.

Contractual services costs are required to pay for the increase in the cost allocation plan.

In order to pay for these increases the only option we have is to eliminate our stipend payments to graduating cadets in the FY03 budget. We are reluctantly taking this action as the post graduation stipend of \$2,200 is a very intergral part of our 83% post graduation success rate.

**Position Adjustment Summary:**

Four positions are converted from non-perm to full-time status.  
 (PCN's in ABS are 09-NP08, 09-NP09, 09-NP10, 09-NP11, 09-NP12).

1003 G/F Match	240.0											

The Department of Military & Veterans' Affairs requests an FY03 budget amendment of \$240,000 in general funds for the Alaska Military Youth Academy's graduate stipend program.

**Background:**

Every year since its inception the Alaska Military Youth Academy (AMYA) has paid a graduate stipend. The federal grant allows for a \$2,200 stipend to be paid to each graduate that meets the criteria set forth in federal guidelines. During the FY03 Governor's budget preparation, AMYA realized that some of their estimated non-general fund sources were not being realized (\$70,000 interagency receipts for a migrant worker program, and \$133,100 in federal funds). In addition, the program needed to add four female platoon leader positions, to have enough full-time team leaders to cover the 24-hour-day, 7-day-week staffing

										PFT	PPT	NP

requirement. The program's total FY03 budgeted cost exceeded existing general and federal fund levels. This problem was determined late in the budget preparation process, and in order to budget for continued basic program operations, a decision was made to submit the original budget without the graduate stipend line-item, and to request a budget amendment.

The purpose of the graduate stipend is to support the cadets' post-residential action plan that is developed during the residential phase in coordination with program staff and volunteer mentors. It is intended to pay for continuing education and or vocational/skills training, leading to a "placement" after leaving the highly structured residential phase. Successful transition from this rigorous training program to the real world is an integral part of the successful model. The Alaska Military Youth Academy currently operates Alaska's largest mentorship program.

**Calculation of Amendment Amount:**

Historically the Federal base grant allows for a stipend payment of \$2,200, which is distributed incrementally based on certain conditions as specified in the federal guidelines. This amendment assumes that the State of Alaska will pay a stipend amount of \$1,500, due to budget constraints. \$300 will be distributed at the time of graduation and the \$1,200 balance will be distributed at the completion of the 12-month Phase III, based on compliance with reporting and program requirements. The AMYA currently budgets for 200 cadets to complete Phase II training each program year, however not all cadets graduate and receive diplomas. To pay each cadet the proposed stipend of \$1,500, an FY03 budget amendment of \$300,000 would be needed; however, only cadets that complete all of the stringent reporting and program requirements of Phase III receive the entire stipend. The AMYA estimates 75% of Phase II graduates will complete all of the Phase III requirements, resulting in a budget amendment request of \$240,000 to fund stipends:

Phase II: 200 graduates x \$300 = \$60,000  
Phase III: 150 (75% of Phase II graduates) x \$1,200 = \$180,000  
TOTAL stipend estimate \$240,000

This budget amendment will allow the AMYA to continue providing payment of the graduate stipend, which enhances opportunities for AMYA graduates to become successful citizens during the Phase III portion of the training cycle. It will help the AMYA comply with the National Guard Bureau (NGB) policy as outlined in the Master Youth Cooperative Funding Agreement.

**Failure to pay graduate stipends in FY03 may result in:**

- A drop in enrollment into the program as the graduate stipend is a BIG incentive to the enrollees.
- Future funding levels may be reduced. The AMYA multi-award winning mentorship program may have fewer cadets comply with reporting requirements, lowering the success rate. The success rate is one of the statistics used by the NGB to secure future ChalleNGe funding.
- Less compliance during Phase III means there is less contact between the mentor and the graduate to make sure they stay with their education and career plans. A critical element of the program is meeting the "after-care" program reporting requirements and increases the chance of success for the student.

**AMD: Transfer STARBASE program to new STARBASE component**

Trout	-258.7	-174.3	-11.0	-20.1	-3.7	0.0	-49.6	0.0	-4	0	0

The STARBASE (Science, Technology, Academics, Reinforcing Basic Aviation and Space Exploration) program is a federal program that is independent from the Alaska Military Youth Academy's ChalleNGe program. The two programs should be funded under separate budget structures.

The ChalleNGe program provides a military style alternative highschool for youths who are at risk of not achieving a productive adulthood.

The STARBASE program is a behavior improvement and motivation program for pre-secondary students. The basic curriculum consists of five days of training

<b>State Tuition Waiver Program for Guard Members at University of Alaska</b>												
1004 Gen Fund	Atrin	250.0	0.0	0.0	0.0	0.0	0.0	250.0	0.0	0	0	0
The Governor's budget includes a transfer from the Alaska Commission on Postsecondary Education to the Educational Benefits component that reflects the amount paid to the University of Alaska for guard members' tuition and fees. This \$250,000 was included in the FY02 budget language section as a payment from the Alaska Commission on Postsecondary Education to the University of Alaska for "course credits for continuing educational benefits to members of the Alaska National Guard". (SLA01/CH60/Sec7/P52/L17).		250.0										
This request reflects the language section appropriation directly in the Educational Benefits component for the FY03 budget.												
This program provides 100% of guard members tuition and fees for courses at the University of Alaska. This funding of tuition waivers is critical to the recruiting, retention, and improving education levels of existing members within the Alaska National Guard.												
<b>Guard Member Tuition Assistance</b>												
1004 Gen Fund	Inc	22.5	0.0	0.0	0.0	0.0	0.0	22.5	0.0	0	0	0
In FY01 and FY02 \$28,500 in general fund tuition assistance was made available for reimbursement of 100% of tuition and fees to guard members attending institutions other than University of Alaska in reaching desired educational levels. In FY01 these funds were used by 70 guard members. In SFY03 the governor's budget increases the amount of these funds to \$51,000.		22.5

<b>Increase in Actuarial Costs to the State National Guard and Naval Militia Retirement System</b>												
1004 Gen Fund	Inc	442.7	0.0	0.0	442.7	0.0	0.0	0.0	0.0	0	0	0
		442.7										
This request funds the increased actuarial costs for the state contribution to the State of Alaska National Guard and Naval Militia Retirement System. The increase in the contribution amount is attributed to a change in the mortality tables used for calculations. Prior valuation reports used mortality tables from 1984 (old industry standard); the latest report uses tables updated in 1998 (new industry standard).												
The current actuarial valuation report prepared for this retirement system indicates the increased contribution amount is necessary to continue the system in its present form.

The Veterans' Services component provides \$540,000 annually in grants to Veterans Service Organizations. The Veterans Service Officers (VSOs) initiate claims (and appeal claim decisions if necessary) through the Veterans Administration for benefits due veterans in Alaska. In addition, the service officers maintain information and referral services for the following: how to solve problems arising out of military service; information and advice concerning educational, health, and vocational guidance and placement; upgrade of benefits; benefits counseling; claim preparation and presentation; state benefits application preparation; assistance to homeless veterans; and statewide rural outreach services.

The joint venture of Veterans Service Organizations consisting of The American Legion, Disabled American Veterans, and the Veterans of Foreign Wars have requested an FY03 increase in the Service Officers contractual grants. This would increase the total grant amount from \$540,000 to \$560,000. The grant amount has not increased in the last three years. The request will cover routine increased costs of operations, including insurance and liability costs, travel, and employee cost-of-living increases.

The Veterans Service Organizations believe that a \$20,000 increase will allow them to continue to provide the same level of service to Alaskan veterans.
