Brief Summary and Statement of Need:

This project will replace the current 15-year-old above grade sewer line, serving the 11,776 square foot school. The current sewer line is failing due to settlement of the support structure, which has caused sags and failure in the sewer line. Structural fill will be imported to improve support foundation, new pipe supports will be constructed so adjustments for settling can be performed, and a new sewer line will be furnished. Proposed cost: \$78,654.
