None.

Project Description/Justification:

The Old Glenn Highway, North Eagle River Interchange to Peters Creek project is a reconstruction of the Old Glenn Highway. It is currently in the design phase. We were notified that Eklutna, Inc., was developing a Condominium project just north of the Interchange on the west side of Old Glenn Highway at the same time that the Fred Meyer Corporation was planning a Big Box store with groceries right across the street. We entered into a Traffic Impact Analysis with both developers to determine what improvements would be needed to accommodate the increased traffic. Turning lanes, driveways and other improvements are needed.
