**Additional Information / Prior Funding History:**

FY2004 - \$4,200,000; FY2003 - \$9,000,000.

**Project Description/Justification:**

The Valdez runway was last resurfaced in 1980 and is near the end of its useful life. The asphalt is severely oxidized and exhibits a large amount of longitudinal cracking and joint raveling. The lighting system is over 20 years old and has outlived its useful life. The runway safety area will be expanded to meet an FAA (Federal Aviation Administration) mandate that safety areas be addressed when working on the runway.
