

St. Paul: Airport Paving and Fencing

FY2005 Request: \$7,325,000

Reference No: 36914

AP/AL: Allocation

Project Type: Construction

Category: Transportation

Location: Saint Paul Island

Contact: Kip Knudson

House District: Bristol Bay/Aleutians (HD 37)

Contact Phone: (907)269-0724

Estimated Project Dates: 07/01/2004 - 06/30/2009

Appropriation: Airport Improvement Program

Brief Summary and Statement of Need:

Complete design. Pave runway, taxiway, and apron, and construct flood and erosion control measures. Expand existing Snow Removal Equipment and Aircraft Rescue and Fire Fighting Equipment Building to accommodate new equipment. Update current Airport Layout Plan. Construct a heated snow removal equipment building. Update current Airport Layout Plan. This project contributes to the Department's Mission by reducing injuries, fatalities and property damage and by improving the mobility of people and goods.

Additional Information / Prior Funding History:

FY2003 - \$5,775,000.

Project Description/Justification:

The current runway is gravel which becomes soft due to heavy rain and spring breakup, thus restricting certain types of aircraft from operating at the airport during those times. Installing limited flood and erosion control measures and paving the runway, taxiway, and apron will provide a more stable surface and will enable larger cargo and passenger jet and turbo prop aircraft to land and take off safely with maximum loads. Expansion of the current airport equipment building is necessary to house and protect FAA and maintenance required airport equipment.
