**Brief Summary and Statement of Need:**

This is an annual funding request to meet improvement or repair needs that arise during the year that cannot be foreseen during the budget planning process. The typical projects result from winter snow/ice damage, facility and equipment failures, changed operating requirements by the airlines or the Federal Aviation Administration (FAA), Transportation Security Administration (TSA) security requirements, etc. This project contributes to the Department's Mission by reducing injuries, fatalities and property damage, by improving the mobility of people and goods and by increasing private investment.
