Additional Information / Prior Funding History:

Project Description/Justification:

Grant to the city of Unalaska for a small boat harbor at Little South America, Unalaska. The boat harbor improvements will address a serious lack of moorage. Vessels are rafting four and five deep at various dock facilities due to the lack of adequate long-term moorage, creating safety concerns and causing significant damage to vessels during storms. Additionally, vessels are forced to leave Unalaska between fishing seasons, increasing operational costs and resulting in a loss of revenue to the city and private businesses. The continued success of Unalaska is largely reliant on providing adequate infrastructure to the fishing fleet.

The Corps of Engineers is responsible for construction of the breakwater that is expected to cost \$11 million. The City of Unalaska is responsible for the inner harbor improvements that are expected to cost \$17 million. The City of Unalaska is requesting \$2 million to assist the City in providing its portion of the funding for the project.
