**Project Description/Justification:**

The state owns or operates approximately 260 airports. Many of these airports are substandard and need improvement. The state seeks federal Airport Improvement Program (AIP) funding for these improvements. For example, in the years FFY'01, '02, '03 and '04 the department respectively received annually approximately \$126, \$133, \$171 and \$206 million in AIP funding for airport improvements. All projects, with the exception of planning and most equipment projects, generate preconstruction costs.
