FY2005 - \$2,500,000; FY2003 - \$250,000.

Project Description/Justification:

The runway, apron and taxiway do not meet state standards for a community class airport. The airport does not have a runway safety area and does not meet current dimensional standards for length and width. There are aircraft traffic conflicts with vehicles crossing the taxiway. Airport lighting will improve operations and safety during hours of limited visibility and darkness.
