This project will replace Airport Operations, Safety and Maintenance equipment that has reached the end of its useful life. The Airport operates on a systematic annual equipment replacement program. The equipment is critical to operating the airport in a safe and efficient manner. No fees are set aside automatically through rental rates; therefore, the method of replacement is through budgeting to replace worn out and obsolete equipment. This project contributes to the Department's Mission by reducing injuries, fatalities and property damage and by improving the mobility of people and goods.

Additional Information / Prior Funding History:

FY2004 - \$2,248,700.

Project Description/Justification:

Airport maintenance and service equipment replacement is based on age, total usage, and repair history. The Fairbanks International Airport is a "Non-Rental" program through the State Equipment Fleet. Therefore, equipment replacement must be accomplished through the capital budget process.
