Additional Information / Prior Funding History:

FY2003 - \$800,000. Per the Department's new cost sharing policy, the community must provide half of the match for this project.

Project Description/Justification:

The road surface is sub-standard and requires extra maintenance to provide operational efficiency. The Dillingham Airport Master Plan recommends realignment of the road to eliminate conflict with navigational aids. The corridor experiences significant pedestrian and bicycle use that requires separated facilities to ensure adequate safety.
