Additional Information / Prior Funding History:

FY1996 - \$7,185,700.

Project Description/Justification:

This section of the Dalton Highway has extremely steep grades and sharp corners and is in need of resurfacing. The narrow 24 feet wide sections are a safety hazard for the amount of industrial and tourist traffic that use the Dalton Highway. This roadway is a vital link to the North Slope oil fields and will be critical in the development of the new gas line.

The department anticipates advertising for the construction contract on February 15, 2005.
