**Project Description/Justification:**

Match will be used for projects previously authorized by the legislature and projects in the FY 2006 capital budget. Each year, the department requests state matching funds based on the amount and type of federal highway funds estimated to be available in a fiscal year.

This budget is based on preliminary estimates of the federal-aid highway funding that will be available in 2006. The department has estimated federal funding levels will range from \$305 million to \$400 million. An estimate of \$344 million federal has been used to build this budget. More accurate information will be available in the Governor's Amended Budget request. The requested match amount is calculated as follows:  
 \$344 million in federal funds requires an average of a 10% state match.  
 \$344.0 M / 90% = \$382.2 M (program total including match amount)

\$382.2 M total  
 -344.0 M federal  
 \$ 38.2 M match  
 + 3.8 M funds for unforeseen federally ineligible highway projects (382.2 \* 1%)  
 \$ 42.0 M 2006 budget request
