**Project Description/Justification:**

Funding for this project will be used to upgrade traffic control devices at school zone crossing so they meet the new requirements in the Alaska Traffic Manual. The funds will upgrade traffic control devices including signs, flashers, and markings at 118 Alaskan schools. The funds will also install variable message signs at selected crossings in the Northern Region where the need is warranted. Upgrading school zone crossing traffic control devices is the best way to achieve reasonably safe and effective traffic control at school crossings.
