Pursuant to Section 51(b), Chapter 3, FSSLA 2005, page 130, lines 6 - 9, \$2 million in general funds are distributed to state agencies to offset the increased chargeback rates for statewide services as identified in the statewide federal cost allocation plan. Of the \$2 million, \$1,700,000 is allocated to offset increased telecommunications rates and \$300,000 is to offset increased Division of Finance chargeback rates.

The amounts transferred to each department are as follows:

- Administration; \$262.9
- Commerce, Community, and Economic Development; \$28.6
- Corrections; \$31.1
- Education and Early Development; \$11.6
- Environmental Conservation; \$37.7
- Fish and Game; \$191.2
- Office of the Governor; \$8.4
- Health and Social Services; \$365.7
- Labor and Workforce Development; \$185.7
- Law; \$55.2
- Military and Veterans' Affairs; \$36.7
- Natural Resources; \$146.4
- Public Safety; \$168.5
- Revenue; \$316.9
- Transportation and Public Facilities; \$109.5
- Legislature; \$36.3
- Alaska Court System; \$7.6

This increment is for the additional funding needed to adequately finance the state's risk management self-insurance program. Workers' compensation, general liability, and auto liability are funded via a charge against the personal services line item, while the remaining lines of insurance are funded via the services line item.												
<b>Assistant State Veterinarian Funding</b>												
	Inc	48.4	34.9	2.5	9.0	1.0	1.0	0.0	0.0	0	0	0
1004 Gen Fund		48.4										
In the FY2006 budget, the legislature approved an Assistant State Veterinarian position but appropriated an amount of federal funds that covers only half of what is needed to support the position. Additional GF is needed to fully fund the cost of this position and, to provide flexibility for assignment of responsibilities and tasks not allowable under federal grants. If the position is only funded with federal grants, it will be unable to lend support for other critical activities such as response to a disease outbreak (Avian Flu) or an animal investigation. This funding is essential to ensure performance associated with the component's end result and dealing with risks associated with animal diseases.

<b>Obtain and Implement Primacy for New Public Drinking Water System Federal Rules</b>												
	Inc	1,694.4	1,213.9	116.0	246.9	49.0	68.6	0.0	0.0	14	0	0
1002 Fed Rcpts		847.2										
1003 G/F Match		847.2										

The Alaska Drinking Water Program is an EPA delegated primacy program, receiving an annual Public Water System Supervision federal grant as the primary source of funding. For the past several years, grant funding has not kept pace with increasing costs required to implement the program. To cope with insufficient funding, needed staff positions have been held vacant causing the program to fall behind in adopting and implementing new federal rules. When this happens, the EPA retains partial primacy and enforces the new rules until the State can catch up. Traditionally, EPA enforcement is swift, strict and does not include technical assistance - making it difficult for public drinking water systems to attain and maintain compliance. If the State does not catch up, primacy may be lost altogether.

Additional staff and resources are needed to obtain and maintain full primacy - keeping pace with new federal drinking water requirements by adopting and implementing new federal rules in a timely manner. Additional federal funds are available through the Drinking Water State Revolving Fund set-asides, though they require a 50% match.

This transaction provides funding to ensure that Alaska's public water systems will be regulated by the state Drinking Water Program not the EPA. In addition to providing needed technical support, State primacy allows:

1. Issuance of monitoring waivers to reduce the cost of routine monitoring. EPA does not.
2. Issuance of variances or exemptions that allow public drinking water systems to achieve compliance over time while still providing public health protection. EPA does not.
3. Issuance of construction and operation approvals that reflect local knowledge, experience and an understanding of arctic engineering principles. Experience EPA does not have.

State regulation of public drinking water systems will enhance the division's performance in protecting citizens from unsafe drinking water and preventing outbreaks in regulated facilities.

---------------------	------------	--------	-------------------	--------	----------	-------------	----------------	-------------------	--------------------	---------------	---------------	----

This increment is for the additional funding needed to adequately finance the state's risk management self-insurance program. Workers' compensation, general liability, and auto liability are funded via a charge against the personal services line item, while the remaining lines of insurance are funded via the services line item.

**Mitigate Declining Response Fund Revenues**

	FndChg	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0	0	0
1004 Gen Fund		725.0										
1052 Oil/Haz Fd		-725.0										

Revenues to the Prevention Account of the Oil and Hazardous Substance Release and Prevention Fund (Response Fund) come from a combination of cost recovery, fines, penalties, and settlements, investment income, and a 3-cent surcharge against each barrel of crude oil produced in the state. In recent years revenues have been declining and have reached a point that they can no longer sustain all core prevention, preparedness and response functions necessary to meet the division's mission to protect public health and the environment from oil and hazardous substance releases while fostering resource development and economic growth.

Expenditures from the Response Fund must be reduced to preserve the integrity of the Fund. The Division of Spill Prevention and Response reviewed program budgets and has proposed a series of reductions, to multiple funding sources in the FY2007 Governor's proposed operating budget. These reductions align expenditure authority with average actual spending in recent years - more correctly reflecting core program needs - but do not bring expenditures in line with revenues.

This Transaction is proposed to replace Response Funds with General Funds and maintain core programs. In this component, General Funds will be directed toward contingency plan and financial responsibility reviews, and inspections and spill response exercises for non-crude oil terminals and tank farms, railroad tank cars, non-crude oil tankers and oil tank barges, and nontank vessels.

If Response Funds are not replaced, reductions will be made. Review and approval of contingency plans and financial responsibility documents for non-crude facilities would be delayed, impacting owners and operators who cannot legally operate without these approved documents. Inspections and spill response exercises of regulated non-crude facilities and vessels will not be conducted resulting in more serious spills and slower, more ineffective spill responses. This component would not be able to meet the current performance measure standards for contingency plan review and inspection of high risk facilities.

**Reduce Excess Response Funds**

	Dec	-260.0	0.0	0.0	-260.0	0.0	0.0	0.0	0.0	0	0	0
1052 Oil/Haz Fd		-260.0										

The IPP budget contains funding for research and development projects, made available from the Charter for Development of the Alaskan North Slope. A review of actual use of this funding has shown Authorization in excess of traditional needs. This transaction reduces that excess and has no expected impact on performance.

**Reduce Excess Interagency Receipts**

	Dec	-145.0	-145.0	0.0	0.0	0.0	0.0	0.0	0.0	0	0	0
1007 I/A Rcpts		-145.0										

In FY 2006, Interagency Receipt authority was increased to accept funding provided by the Department of Natural Resources for the Joint Pipeline Office in Valdez. Funding, originally provided to conduct environmental monitoring and oversight of the Transalaska Pipeline and Valdez Marine Terminal, has been
